

Dear Hiring Manager,

With recent graduation from Clearfield Institute's Certified Medical Assistant Program, I'm excited to put my education to work as a hands-on employee at your clinic. Externship work at North Valley Family Health involved patient intake, EHR systems, and room preparation for examination.

I look forward to developing in an organizational setting and infusing each patient interaction with empathy and structure. I would be thankful to be able to help further your cause.

Best regards,
Michael Nguyen
