

To the Hiring Manager,

I am a fashion designer with interest in streetwear. I apply for the Junior Fashion Designer position at VisionWear. My experience includes pattern development. I enjoy creating graphics that are easily seen. I hope to offer my creative thought and energy to your team.

An internship at UrbanEdge helped me develop abilities in Adobe Illustrator and CLO 3D. I want to keep learning. I will provide new and interesting styles for your brand.

Thank you for your consideration. I look forward to working with others. I want to challenge the limits of urban fashion.

Sincerely,

Leo Zhang
