

Dear Mr. Elkins,

I'm applying for the Pharmacist role at Target Pharmacy in East Austin. With four years of experience in community retail, I've come to deeply enjoy helping patients navigate insurance plans, understand their medications, and feel heard in a busy world.

Currently licensed in Texas, I'm trained in immunizations, MTM documentation, and workflow optimization. I've also mentored two pharmacy interns, which sparked my interest in team development.

I'd love the opportunity to support your store's success with my customer-first approach.

Thank you,
Jason Talley
