

Dear Mr. Thomason,

I'm reaching out to apply for the Managed Care Pharmacist opening at Everwise Health. With a strong foundation in clinical review and member education, I'm passionate about optimizing outcomes through smart, patient-centered pharmacy strategies.

At HealthLink, I worked with the prior authorization team and supported MTM services for over 6,000 plan members. My work helped improve adherence for high-risk populations through data-driven outreach and follow-up.

I'd love to bring that same impact to your clinical pharmacy programs.

Best,
Leslie Carmichael
