

Dear Ms. Ford,

I'm applying for the Community Pharmacist role at Welwell Pharmacy. With seven years in independent and chain settings, I've built a practice on accessible education, rapport, and streamlined workflow.

I'm especially skilled in vaccine delivery, compliance packaging, and engaging patients on chronic conditions like hypertension and diabetes. I believe community pharmacies like yours are the true frontlines of public health.

I'd love to continue that mission with your team.

Thank you,
Nate Holbrook
