

Dear Dr. Owens,

The Prior Auth Pharmacist position at AxisRx aligns perfectly with my experience and interests. I've spent the last two years reviewing clinical criteria for specialty medications and coordinating determinations with providers.

My role at MedAssist required in-depth knowledge of Medicare Part D and commercial formularies. I value clarity, fairness, and efficiency in every clinical review I complete.

I'd appreciate the opportunity to support your pharmacy operations team.

Sincerely,  
Farah Zaman
