

Hi there,

I'm a freelance data entry specialist with 4+ years of experience supporting startups, coaches, and agencies. From CRM cleanup to product database uploads, I help clients stay organized and accurate without the stress.

My tools of choice include Google Workspace, Notion, and ClickUp—but I'm always happy to adapt. Recent feedback from a client noted: "Fast, friendly, zero errors. My go-to VA."

Let me know if you'd like to hop on a quick call. I'd love to help.

Thanks!

Natalie M.
