

Dear Hiring Manager,

As a second-year M.Arch student at Columbia GSAPP, I'm excited to apply for a summer internship at your studio. Your work in urban resilience and modular housing aligns with my graduate thesis research.

Through my academic studio projects, I've developed proficiency in Enscape, Rhino, and physical model-making. I'd be thrilled to support your team with design development and competition entries this season.

Thank you for your consideration.

Best,  
Alina Sato
