

Dear Ms. Jafari,

As an architecture student entering my final year at the University of Michigan, I am applying for your internship position for the fall semester. I've followed your design competitions with interest, particularly the award-winning NetLab Pavilion.

This past year, I was part of a team that placed second in the Arch Out Loud competition, and I'm eager to grow in a design-forward firm like yours.

Thank you for your time.

Sincerely,
Dominic Hart
