Dear Admissions Committee,

I am writing to express my interest in the MSc in Computer Science program at ETH Zurich. As an engineering undergraduate with a keen interest in applied algorithms and robotics, I believe that this program would bridge the gap between my academic degree and computational experience.

I have studied control systems and AI, and developed a motion-planning script, which has been taken up by two junior teams in our robotics club. I'm eager to develop that into research and practice through your program.

Thank you for considering my application.

Best regards,

Amina Reza
