

**Dear Hiring Manager,**

**I'm a second-year computer science student at Stanford, applying for your Summer Internship Program. I've built projects with Flask, Postgres, and React, and recently finished a distributed file-sharing simulation using gRPC.**

**I'm particularly drawn to your mentorship culture and the opportunity to shadow senior engineers. I'd love to learn from your team and contribute wherever possible.**

**Thanks again for your time.**

**Sincerely,  
Monica Reid**
