

Dear Ms. Patel,

I am a recent University of Illinois graduate in Civil Engineering who is eager to apply academic education and internship experience in the Junior Engineer position at Henderson & Lee.

During my internship at MetroBuild, I collaborated with senior engineers and site inspectors to assist in grading computations, CAD revisions, and project scheduling. I'm thoroughly familiar with AutoCAD, Civil 3D, and have hands-on experience with running small field surveys.

I'd be excited to grow within your firm and contribute to meaningful urban infrastructure.

Sincerely,

Jared Lin
