

**Dear Ms. Alston,**

**I am a Civil Site Engineer passionate about tackling structural problems, and I was excited to see your employment opportunity at GreenAxis Projects. My areas of work revolve around cost-saving grading plans, utility coordination, and erosion control in high-density housing.**

**I recently completed a three-stage residential project with the team of Horizon Build Group, where I helped reduce change orders by 25% with my careful QA checks. I hope to provide the same level of accuracy and communication on your projects.**

**I look forward to having further contact.**

**Best regards,**

**Stephanie Rowan**
