

Dear Ms. Garrett,

As a recent Finance graduate from Northeastern University, I'm excited to apply for the Entry-Level Financial Analyst role at Screened In. My passion for financial modeling and problem-solving—along with academic excellence and internship exposure—makes me a strong fit for your team.

During my senior year, I completed a financial case competition, leading our team to first place by building a five-year forecast model in Excel that impressed the judges for its clarity and risk scenario depth. I'm detail-oriented, fast-learning, and eager to grow within a company known for empowering early talent.

Thank you for your consideration.

**Sincerely,
Philip Bates**
