

**Dear Mr. Mitchell,**

**I'm applying for the Financial Analyst Intern position at Content Canvas. As a third-year economics major at UCLA with a minor in data science, I'm eager to gain real-world exposure to how finance drives innovation.**

**In my academic work, I've built regression models using R to evaluate pricing strategies and contributed to an investment club's portfolio analysis. I'm proficient in Excel, SQL, and Tableau—and ready to bring my analytical mindset to your internship program.**

**I'd love the opportunity to learn from and contribute to your finance team this summer.**

**Best,  
Janie Lowe**
