

Dear Ms. Harris,

With five years of experience in FP&A, I'm excited to apply for the Financial Analyst position at Global Cloud Platforms. At Innovatek, I supported quarterly forecasting, automated cost reporting in Excel, and helped reduce budget variance by 12% over two fiscal years.

Beyond numbers, I collaborate closely with product teams to align financial insights with strategic decision-making. I'm passionate about transforming data into action—and would love to do that at a company as forward-thinking as yours.

**Warm regards,
Ismael Lowe**
